

DAY 7:

Dear Parents and carers,

Today is the last day of the week, at 7:30 AM Group A fed the sheep, lambs and calves and Group B fed the goats and poultry. After that we all ate breakfast and had a little break. After that, at 9:45 AM Group A fed the horses and donkeys and we also walked the 4 donkeys, before we walked them we brushed them and we cleaned their poo. Group B fed the hungry pigs and did more farm task! When we finished our farm tasks, we drank some drinks and played different kind of games.

Then we ate jackets potatoes with different toppings and also ate cake for desert it was very delicious. Then we had a lovely walk on the beach and collected different rocks and seashells. We were amazed at how beautiful the beach was. At the beach some people got to hold crabs and sea worms! It was so fun and amazing! We then went back home and some of us were quite cold so we had an early shower. Then we had our presentation to who had the cleanest dorm and will get a prize. We all decided to make the farmers and the cooks a thank you card because we thought it would be nice.

We feel sad because it was fun meeting different animals that we have not seen before and it was very nice to help the farmers. At the same time were happy because we missed our parents and our siblings.

We will miss doing this!
